Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 11 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Wet and windy on Monday, but feeling milder.

Today:
A cloudy day across the region with outbreaks of rain, turning heavy and more persistent at times. Winds will strengthen with a risk of coastal gales. Feeling milder than of late. Maximum temperature 9 deg C (48 deg F).

Tonight:
Remaining wet this evening before rain and skies clear overnight. Winds will ease too. Turning cold and frosty with a risk of ice for some by morning. Minimum temperature -4 deg C (25 deg F).

Tuesday:
A cold and frosty start for most with icy conditions for some. Clear and dry all day with plenty of sunshine before clouding over after dark. Maximum temperature 4 deg C (39 deg F).

Outlook for Wednesday to Friday:
Outbreaks of heavy rain throughout Wednesday but feeling mild. Sunny spells and scattered showers on Thursday after a drizzly start and feeling colder. Cloudy with scattered showers on Friday.
